

## 2022 versus 2023

### Jail diversion program calls in Stow and Harvard

Total evaluations and follow-ups performed by co-clinician Normandin tripled in the program's first two years.

|   | <b>2022</b><br>(11 months Feb. to Dec.)* | <b>2023</b><br>(12 months) |
|---|--|----------------------------|
| Total interventions<br>(evaluations and follow-ups) | 135                                      | 333                        |
| Average interactions per month                      | 12.2                                     | 27.75                      |

\*Full-time clinician started in August 2022
